This is your my volunteer.com homepage! Here you will see reminders, announcements, and updates during the school year. We’re going to walk you through some of the features on the new system!
Personalizing your homepage:
Adding a profile picture (optional feature)

One feature you can use to personalize your page, is by adding a profile picture. To add a profile picture, just click on the “edit” button.
Personalizing your homepage: Adding a profile picture (optional feature)

You will arrive at this screen, here you can edit your contact information, subscribe to weekly email reminders, and add your profile picture.

To add a new photo or update your photo, click the “update photo button”.

Click here to subscribe to weekly schedule reminders.
See news, announcements, and school holiday reminders in the “news” section.

Here you can find important announcements throughout the school year.

We will list the upcoming holidays, early dismissals and events.

You will also find any stories we want to share here too.

*Please note: we will still be sending out the monthly newsletter reminding you of these things, this is just so you can view it in one place when you log in to your profile.
Once you have started log your volunteer hours, you will be able to see the impact you are making with your student(s), each week, month, and throughout the entire school year. Having this feature on the log in page really puts the work we are doing into perspective!

NOTE: We will still be sending out the monthly reminders to report your visits. Visits will still be due by the 5th of the month. You can log your visits after each individual visit or monthly. When you sign in at the school, that is kept internally, so you must also report your visits to VIPS.

Reporting visits is extremely important, as it is the only way we know your student is being served and VIPS shares this information with the superintendents office monthly, to show the impact of our work!
Have easy access to your match packet items

Under the “Files” section, we have added all the documents you will need for your match packet.

Here you can find things such as the school calendar, book ideas list, how to select your student, how to report your volunteer hours, the ice breaker and survey for your first session with your student, sight words, and reading tips and strategies.

To access one of the documents under the “files” section, click the document you would like to open and it should automatically open on your screen.

Files
